This is a NASA/Chandra/Cxc "The Rest of the Universe" Chandra Science Center Lecture Series. Dr. Ryan Orosz, Postdoctoral Fellow, Chandra X-ray Observatory Center, Harvard-Smithsonian Center for Astrophysics, Cambridge, Massachusetts, USA. Dr. Orosz's research focuses on the study of the Galactic Center using X-ray observations from Chandra and other telescopes. Dr. Orosz's talk is titled "Chandra Observations of the Galactic Center: Sgr A*, Sgr A East, and Sgr B2" and was recorded on 2 May 2020.
